Hakoware by Harvest Pack Inc manufactures and distributes disposable tableware and food packaging for restaurants and food service providers. Based in Arcadia, California, our company is on a mission to end food packaging waste by providing various lines of compostable plant-based materials.

Hakoware also offers restaurants with branded, customizable, eco-friendly packaging for specific needs. Founded in 2013, we strive to supply customers with premium packaging solutions and exceptionally reliable service. Currently, we work with more than 500 restaurants and food distributors across the country, helping keep food fresh and delicious.

Sugarfiber™ Containers & Tableware

Sugarfiber™ is a Hakoware exclusive sugarcane fiber series. The material is derived from residual fibers left from sugar production, commonly known as bagasse. Our Sugarfiber™ products have a natural look with a sturdy paper-like texture. These containers are microwavable and freezer-safe. *Containers with PLA coating are not microwavable. Sugarfiber™ products contains no PFAS chemicals and are BPI Certified. Compostable in commercial composting facilities. They are environmentally friendly unlike their Styrofoam or plastic counterparts.

PLA Straws

Cornstraw™ series are made from BPA-free cornstarch. While our straws may look and feel just like plastic, we can assure you they are compostable. They are great for stirring an iced coffee, cocktail, or any cold drink of choice. PLA is heat sensitive. Please use for cold drinks only.
